The convention is limited to 600 attendees (and 40 V.I.P. memberships) due to space limitations. *What do you do with other con flyer space? Include something useful and fun. . .*

DOCTOR WHO EPISODE GUIDE

This episode guide presents all of the stories that a viewer would need to watch to get the full narrative storyline of the televised *Doctor Who*. While there can be endless debate over what should or should not be included in this list, the following would provide the fullest experience of the live-action TV series. This guide is presented in chronological order of presentation and identifies which season of the series the shows were presented (with single broadcast in a year without a full season being identified as a stand alone series). The actor playing the Doctor is identified with their introduction. A code representing the Doctor and which story presents a code that represents the title of each story in bold. Any alternate titles are given in [brackets]. Story production codes are given in [brackets], and the number of episodes in a story are in (parenthesis).

- FIRST SEASON** (William Hartnell as the Doctor)
H-1. **An Unearthly Child** {aka 100,000 BC} [A](4)
